MEXIA, TEXAS, SUNDAY, OCT. 19, 1924.

75c PER MONTE IN ADVANCE

hesitation or apology that it is the duty of every patriot to attend church at least one time today. It is "Go to Church Sunday" in Chris. tian America.

Moxia should fall in line with the hundreds of thousands of other communities in the United States and conform to the plan to make this the most momentous day in the CUSTOMER PLAN Democrats Warn Christian life of this country.

It is a matter of great pride that there are millions of Americans who make every Sabbath a "Go to Church Sunday' and it is fervently hoped that the results today will be such as to increase this number of loyal Christians and churchmen by a vast throng.

Governments come and go, civilizations rise and wene, great individuals die and are forgotten, fortunes are amassed and lost, nothing survives except religion, the belief in a Deity and a hereafter.

The churches have "off periods" in attendance as the religious force temporarily burns low in the public. But architects announce that \$2,000,-000,000 is being spent this year in America on new church buildings. That's good news, mightily so, even though it is only a fraction of what will be spent on movie theatres.

The question is asked today in America, can Christian America afford to permit adherants of other faiths in the revolution torn lands across the Atlantic and Pacific show a greater zeal and a greater devotion to their churches and to their institutions than do the folks here in our own country?

The news comes that Mahatma Bandhl, a zealot, lofty souled and · vincere, was shocked at the extreme bitterness between rival religionists in India, and the resulting bloodshed. As a "penance" for their deeds and to recall them to a nobler duty than killing each other, Gandhi undertook m prolonged fast.

Petitions from his followers, warnings about his declining health and sound rebukes from his critics alike failed to move him, and all India watched this act of faith.

Finally, after 21 days, Gandhi consented to break his fast. With the announcement that he had taken food, India gave itself up to celebration and rejoicing. In the course of festivities groups of rival religionists came together, and casualties resulted, there being many killed and wounded. In the United states today, citizens have one greater than Gandhi or any other mere mortal who ever lived, who not only fasted but died for them, and the Sabbath in this country celebrates His resurbanquet and who pronounced it a on the cross.

The only reason why American farmers are not plowing with a forked stick instead of their improved machinery is Christianity.

The only difference between the mother on the banks of the Ganges who throws her child in the river to the Crockodiles in a fit of pagan fanaticism and the American mother who tucks the cover about her babe at night, smoothers it with kisses and lifts a prayer for its protection in the night and hereafter-is Christianity.

The only reason that American children are granted the boon of a free public s freel system while children in many other lands are made the slaves of ruthless parents and victims of iniquitous systems of oppression-is Christianity.

The only difference between Africa with its mighty natural resources its darkness and its savagery and America, overflowing with prosperity and illumined by the light that shall never fade-is Christian-

The only reason that men and women and little children may walk the streets and along the highways and by ways of this land, knowing that their liberties are guaranteed and protected, while others in other lands where Christ is not known are forever held in the shackles of bond.

age and tyranny-is Christianity, The only difference between the man who fills his hide with rum and goes home to curse his wife, beat his children take the food from their lips and the shoes from their feet, to raise more money to buy more boote, and the man who goes to his family to greet them with a smile and to be greeted by kisses of love, as he lays the offerings of a stainles slife of labor at their hearthstone-is Christianity,

Think about these truths, Mexia

Arouse yourselves to your duty. As one mighty standing and rising army, an active force for greater service to mankind, go to church to-

day. *Onward Christian soldiers, marching as to war, with the Cross of Jesus, going on before.

POWER COMPANY REPRESENTED AT BANQUET

OF OWNERSHIP **EXPLAINED** AT MARLIN

A large number of the employees of the Community Power and Light Company of this city attended a joint banquet of representatives from all other towns in this part of the state served by the company which was given Friday night at Marlin. Mexia, Mart, Rosebud, Lott and Marlin had representation at the meet-

for E. F. Haverfield of St. Louis and other officials of the company to explain the policy now pursued of offering stock to the public generally. This policy is known as the 'Customer Ownership Plan,"

In this connection, Mr. Haverfield has been in Mexia several days and reports much interest in the propostion wherever he submits it.

He states that there is already about \$75,000 in preferred shares of the company held in this territory and that the total number of shareholders in all the properties runs into the hundreds.

No salesmen are being used in the campaign, he stated at the Marlin meeting, as all sales are to be made through the employees of the company to the citizens in the communities served.

It is explained that the policy is not a new-one-but is subscribed to by the Texas Power and Light Company and other electric light and power companies throughout the country and that the benefits of such a plan have already been prov-

The electric light plant touches everyone in the community and everyone is dependent upon its service is certain particulars daily in the communities where it offers its service. Therefore, the company reasons, the profits resulting from the business should be offered the home people

Those from here attending the most enjoyable affair were General Manager D. S. Colwell, Mrs. Col well, C. I. Watkins, Lee Wilkerson, Tom Anderson, Mr. and Mrs. W. H. Perry, Wright Kincheloe, L. R Chamberlain, Paul Quinn, W. W Rowland, Harry Ashton, Mr. and Mrs. Sherman, Mr. Phipps, and Mr. Kincaid.

Col. George H. Carter presided.

The evangelist has been in the work for 23 years and is one of the great Bible scholars of the church and founds his message on The Book of Books.

DAVIS CONCLUDES BODY OF TEACHER CAMPAIGN IN THE FOUND MUTILAT'D WEST IN ST. LOUIS IN SCHOOL SHED

By PAUL R. MALLON

ST. LOUIS, Oct. 18.-John W. accidents was about 4:00 o'clock in just a little more than two weeks the afternoon when a Dodge touring off, the Democratic presidential candidate struck this pivotal point of his final tour before starting back east to concentrate his efforts there henceforward.

Davis found managers here elated over prospects of carrying Missouri, They told him his majority would be safely over 5,000. His speech here tonight will cinch the state, they said.

With the first half of his crusade over Davis is highly confident of the outcome.

"The widely advertised apathy of Democratic voters is a myth," he says. "The straw polls are just what straw polls have always proved to be—a tremendous majority for the side that conducts them.

"Every poll that the democrats have ever taken always showed 100 per cent in their favor, and the division of the present polls merely shows how far the republicans have fallen below their mark.

Davis wound up his Illinois campaign last night with three speeches in the foreign quarter of Chicago In the Bohemian, Jewish and to Woodrow Wilson whom he declared had welded the mations of the world closer together than they had ever before and pointed to the accomplishments of labor during the eight spired to obtain \$80,000 from Nathyears of the Wilson administration. Leaving here tonight Davis will go wire tapping swindle. to Nashville, where he will rest

I MEN AND WOMEN IN NEWS OF THE DAY.

Above: MRS. CORINNE RODINION & HENRY FORD, Dolw: WM WASHBURN NUTTING & SMEDIEL D. BUTLER.

Radio broadcasts have been sent out to locate William Washburn Cutting, noted New York yachting editor, and the three companions with whom he sailed from Christiana in July in a tiny cutter. He expected to follow the route of the Vikings of 500 years ago and touch iceland and Greenland. Mayor W. F. Kendrick, of Philadelphia, has announced that Brigadier-General Smedley D. Eutler, of the Marine Corps, his flery Commissioner of Public Safety, may retain office for three more years if he can secure leave of absence. Henry Ford has withdrawn his offer to purchase the famous Muscle Shoals water power project from the United States Government. Governor A. E. Smith, of New York, has appointed Mrs. Corinne Douglas Robinson, sister of the inte Theodore Roosevelt, a member of the commission to supervise erection of a Roosevelt Memorial in New York City.

as it is persistent.

hunch that the fine little tennis conditions in a strange land, that anything. Be serene and look serow between Tilden and the association and the ambition of the champion to knock the movies and the stage for a row of service aces will remove Tilden from the American

defending team next season. The international team tennis situation is very closely related to the existing condition in the heavyweight fighting class. Jack Dompsey looks to be due for a reign as the champion until he wears out and the United Sates seems to be sure of world domination in tennis until Tilden quits and Billy Johnston wears out.

As far as Australia is concerned, however, this outlook is not as promising as it might seem... While Tilden and Johnston are wearing out, the Australian stars will be suffering the same effects of time and competition and there are no players in Australia coming along who can be compared with a flock of youngsters that are developing in the United States.

Although there is no remedy for it, the circumstances which force challenging nations to spend thousands of dollars, travel hundreds of | miles and spend months of time on the job, give the United States a big advantage in defending the cup and keeping it in this country.

At one time, not so many years azo, the United States was in the position of a challenger, and had to spend just as much money, time and labor as other nations are doing now. So it is fair for all in the long run perhans.

When you come to think of it, foreigners are not wrong when they complain that the United States depends upon the element of luck to retain dominance in most of the fields of international sport. What they regard as luck is the convenlence of a lot of natural advantages in the defense of the international polo cup, the yacht cup, the Davis tennis cup and other international trophies.

It is claimed in London and Paris that if the United States had to defend its major championships on

There is the parable late the law should be resented. of the rich man who upon deciding to go on a journey divided has property among his servants. To one he gave five talents, benefits of prohibition should be control I became indebted to many to another two and to a third one. The first two invested what brought to the attention of working concerns in your city, yourselves inhad been given them, putting it out at interest and doubled their money. The third, fearful lest he should lose the talent, which, by the way, was worth between \$1,200 and \$2,000 burled it. When the master returned for an accounting, he scolded without knowing why. the servant who had allowed his property to remain idle, and, taking the one talent from him, gave it to the servants who had shown more wisdom.

There is still idle money hidden between mattresses, in old shoes and buried, but not so much as formerly. There is other war upon it, should be brought to money in the shops, factories and on farms, representing its the attention of patriotic people, purchasing power in wheat, machinery and gold, and working 6 The laws for the punishment hard for its owner, and for all of us.

THEIR FEET IN THE CLOUDS

Recently young Teddy Roosevelt defined Republicans as upon offendin individuals who have their heads in the clouds, but their feet vere criticism. on the ground. That may describe the Republicans of the school of Lincoln and the elder Theodore Roosevelt, Republicans who had ideals and the courage and independence to strive for them, but does it fit those of the isolationist school and the group that would ignore the corruption at Washington? It is noticeable that an increasing number of the Republicans of the Lincoln and Elder Roosevelt schools are turning to the leadership mending the Retail Merchants As-

May it not be that some of the Republicans of the young Teddy school, who think they have their feet on the ground, and their heads in the clouds, illustrate just the reverse? Their inability to see what is going on about them, the conditions and the tendencies of the times, suggests rather that they have their heads in the ground and their feet in the clouds. For instance, if young. Teddy, when assistant secretary of the navy, had had his head up and alert, would be have been as ignorant as he proved to be of the leasing of the navy oil reserves to private sources? So far as his testimony on the subject of the oil reserves goes he might as well have had his head in the ground Mexia, Texas, all the time; he appeared to have utterly no grasp of the sig- Dear Sas: difficunce of what had been coing on around him.

It is the feet, not the heads, of some of these boastful Re- 814.00 to cover my account in full publicans that are in the clouds.

SEE YOUR DUTY AND DO IT

The public should respond cheerfully to the treasury's lat-etriquest. It appears that there are too many quarters in cir-tulation and too few half-dollars being passed around.

The treasury requests that from now until Christmas the public make an earnest effort to accept the half-dollars in preto see to the quarters. Otherwise the treasury and federal rethe quarters, otherwise the treasury and lederal recorne vaults will be loaded up with the stuff while 25-cent
pures are rattling around in all pockets. The treasury declares
that there is an emple supply of 50-cent pieces but that there
is sometime of a shortage in the smaller comage.

The public's duty is clear: It must receive half-dollars till

it builts. We'll be glad to receive ours!

Statistics show that there are fewer inmates today of the to nery's portiouses, fustcad of going over the hill, they seem to be making the grade.

Among new steps approved at the recent congress of dancit goods it's is the Huppa-Huppa, named, it appears, by a stammorer with hiecotylis.

A New York judge told a convention of bankers that youth is committing the most of our crimes. The country seems to be nu sug the old-fashioned woodshed.

All the driver has to bear in mind when approaching a grade crossing is that STOP, LOOK AND LISTEN signs aren't created for the benefit of railroad engineers.

-This illustration will make its appeal to young men and women who are contemplating matrimony, and whose desires and ambitions are for an assured happy future, where Love's young dreams may be mothered under the protection of an ideal home.

—It is the fulfillment of this dream, the creation of a home with its ties of sentiment, that makes for continued happiness. It is the best insurance for lasting contentment, and at proposing time when you are desirous of fulfilling the promises and plans you have for the future, if you have a lot and a bank account or building and loan shares, it is then you will appreciate fully your efforts which will place you in position to back up your good intentions with a home that will be the very means of assuring a perpetual happiness.

The first few years of married life, while adjustments are taking place, are the ones in which home ownership plays an all important part. More matrimonial failures are due to inability in meeting rents and keeping up appearances, than all other problems combined, while if there is sufficient means to provide a home its influence and pride of possession will dominate.

—No man has a right to entice a girl from her home and fireside with simply promises of a future in a rented home. Conservative thinking men realize this, and the awakening on this important subject will work a transformation in the future lives of our citizens.

-Resolve to buy a lot and save, that her vision of a home and happiness may be fulfilled by you. An accomplishment that you will always be proud of.

—Build an ideal home of your own; create an atmosphere of attractiveness around your present home; after this lend your financial support in helping someone else acquire a home. Mortgage loans are the safest and surest of investments, and, in addition to the security, you will be helping in a movement that will mark you a real benefactor—a citizen with the highest moral code of ideals.

The following organizations, public spirited firms and individuals are interested in helping to make Mexia a city of more beautiful homes and to assist in every way possible in creating homes for those who are desirous of making Mexia their future home, and it is their recommendation that all who can possibly do so, build homes or convert their surplus money into home building channels. That you may take full advantage of the information these pages contain, they have retained the services of competent designers to prepare a booklet of home plans and will mail a copy free on receipt of the coupon from this page.

Plan No. 1860-1861

Make your visions of home a reality, by adopting this modern English stucco bungalow plan to build from. This is one of the very latest ideas in modern architecture, and one that will be in vogue for many years to come. You will agree with us when we say it will be hard, indeed, to improve upon the general arrangement of the rooms. They are just as compact and convenient as it is possible to make them, and we know you are going to appreciate our efforts in creating and making possible these home plans for you to build from.

Mail the coupon below for your copy of—

MAN WHO WRENCHED HIS BACK PLAYING GOLF DIES

JERSEY CITY, N. J., Oct. 17 .-John J. Ferris, 48, president of the Jersey City board of education and a bridge builder, died today from a stroke which attending physicians declared resulted from a twisted vertebrae suffered while playing golf at Deal this summer. When Mr. Ferris drove at a golf

ball on the Deal course he wrenched his back, subsequently being taken to a New York sanitarium for treatment which proved unsuccessful.

WHAT DO YOU KNOW ABOUT THIS DELAY?

Coolidge has already received about 8,00 bales of cotton this year. The town expects to see marketed in that thriving little city at least 10,000 bales this season. The street done more to injure humanity than leading out of town known as North Belknap has not yet been improved

HIGH SCHOOL NOTES.

Tuesday afternoon a Sophomore class meeting was called by the vice-president, Chester Harris. The class decided to go on a picnic Wednesday night. At six-thirty on the appointed day the Sophomores and a few invited friends, with Mr. and Mrs. John McElroy and Miss Whittaker as special guests, and Miss Wells, the class sponsor, met at the Baptist Church and went in cars from here to the Reunion Grounds. After several games were played someone made a motion to eat; this motion was seconded and carried, and a delightful lunch was spread. Everyone had a good time, and we are planning lots of good times all through the year.

The first number of the "Black Cat" will come out within a few days, and everyone is looking forward to its appearance. Not only is the High School behind this publication, but all the town is supporting it, too. The School Board declared Thurs-

day a holiday because of the big circus which came to town. From the appearance of the big crowd the High School was well represented, and it is hard to say just who enjoyed seeing the animals most. Quite a few of the students were seen seen watching the unloading of the

Miss Ross and Mis. Kruger of the sights of the Dallas Fair this week- Miss Lessie Spearman.

Education girls met at the First Baptist Church at five o'clock. Miss Scheel, the Physical Education Director, chaperoned us on a sunrise

breakfast. By five o'clock about fifty girls had arrived, so the march for Wright's tank began.

The girls taking Physical Education for the first time were made to carry all packages, and after arriving at the tank were made to get the wood, build the fire, cook the bacon, and spread the lunches.

By the time that the other girls were tired of making fun of us, the breakfast was ready. Everyone was very hungry and although the breaktast was good ,anything would have had a savory taste by that that When every crumb had been eaten

the first year girls were again called to the front. This time it was for the purpose of doing stunts for the enjoyment of the others. About nine o'clock we returned to

town, tired but happy after having a good morning's outing.

MEXIA GROCERS URGE BUYING IN LARGER QUANTITY

Mexia's exceptional grocery stores. shole-sale and retail, are attracting hundreds of people to this city from distant points, where they purchase their grocery products and dispose of their truck and noultry.

It is doubtful if any town the size of Mexic in Texas offers to the public better grocery stores than are found right here in Mexic. They are the last word in up-to-dateness and are constantly expanding to meet the

They are always anxious to say a word that will help their customers and one of the good suggestions they advance is for purchasers of their products to buy in larger quantities and thus save considerable money each year. Of course it is to their advantage to sell in smaller quantities but they realize that the public generally does not know just how much is lost to the community each year in paying for tin boxes, paper and card bags, fancy bottles with fancy tops, and little tin receptacles with patented tops, which are used once and then discarded, never

Freshmen Given Mental Tests At State University

AUSTIN, Texas, Oct. 19.-Under the supervision of the psychology department, all freshmen of the College of Arts and Sciences of the University of Texas have been given mental tests to determine the average run of intellectuality, reasoning power, and thinking ability of the high school graduates. Approximate. ly 75 per cent of those who took the examination made a passing grade, according to Dr. F. A. C. Perrin, professor of psychology.

The test is a very general one covering many fields. There are 100 questions asked, and one hour is given to answer them in. Ten different types of questions are given. Some questions involve merely the filling in of blanks, some are reasoning questions, some deal with algebra and mathematics, while others test the students knowledge of geography, prominent men, and current events. If a student's answers in. dicate that he is delinquent in reasoning power he is given special attention, and a special course of study is outlined for him.

Keep on telling 'em and you will keen on selling 'em. News advertising brings desired results.

Houston Quarantine Does Not Affect Local Citizens

HOUSTON, Oct. 18.—Acting upon reports reaching Houston from various sections of the state, the Houston Chamber of Commerce has broadcast a statement, approved by Dr. G. M. Guiteras, chief of the government quarantine station at Galveston, regarding quarantines covering the hoof and mouth disease and the yellow fever.

"With respect to the hoof and mouth disease there are no quarantine restrictions that conflict in any way with the liberties of the citizens of Houston or visitors to the city. Restrictions are in force only about the area 20 miles from Houston through which none can pass without being fumigated."

"There are absolutely no restric-

Mexia Steam Bakery Pkone 394

The month of October has been featured by two important gas discoveries in the Mexia territory which point to oil pools, in the opinion of oil men of this section, and has drawn back to Mexia many faces familiar to the oil boom days of 1921 and 1922.

One of the discoveries was southwest twelve miles and the other northeast six miles. The first was on the Rich Kennedy truct, southwest, discovered by the Bains Creek Petroleum Company. The last came in Wednesday morning on the Manning farm, and registered over 23,-000,000 cubic feet at 3:30 the afternoon of the date on which is unexpectedly blew in.

Southwest, new tests are expected to be announced soon and it is likely that the gasser will be utilized and sold to companies who have their eye on this production. The gaszer was estimated as being good for about 8,000,000 cubic feet,

The Carter and Lytle's test on the Manning bridged over Thursday morning and every effort will be to to keep from losing the hole. Whether its production is sold as a and er will be determined by Carter and Lytle themselves upon arrival in the field. The discovery has increased optimism in the region

and now practically every acce of land is under lease. The Humble Company has the largest block of The Boyd Oil Company, testing on

Methodists Urged To Attend Fourth **Quarterly Meeting**

Rev. C. A. Bickley, Presiding Elder of the Corsicana District of the Methodist Episcopal Church South, is urging upon Methodists throughout the district the necessity of working hard from now until Conference for the success of the activities of the denomination.

In a card addressed to members in Mexia, he says:

Dear Co-Laborer: We approach the close of another Conference Year with gratitude to God for both material and spiritual blessings. God has been gracious to us. May our gratitude to Him be shown by loyally standing by His church. Our goal is 100 per cent on salaries and Conference Collections in every charge. We look to our faithful stewards, whose loyal efforts alone can make this possible.

The Fourth Quarterly Conference will meet at Mexia, Oct. 24, 7:30 p. m. 1924. We want every steward present. Bring a praying heart and a full report. The church needs your counsel at this important conference

Thanking you for your faithful service, I am, Sizzerely yours,

To Wipe Out Party Lines In Nebraska

(By United Press) LINCOLN, Neb., Oct. 19.—An amendment to the constitution abolishing party lines in all primaries is to go before the voters on November

Under the provisions of the amendment, the party circle would be banished in all elections and in primaries candidates for nomination to office, would be required to run as individuals.

spring, when the majority of the nominations on the progressive party ticket were circulated. The signatures were validated and the amendment ordered placed on the ballot tures were validated and the amendby Secretary of State Charles W. Pool recently.

Gov. Charles W. Bryan, democratic vice-presidential candidate, was one of the most active endorsers of the elimination of party lines in the pri-

LIONS HEAR OF WESTMINSTER **EXPANSION PROGRAM**

The weekly luncheon of the Lion's ■ub at the Topic Cafe Friday, cough not largely attended, was a most enjoyable, meeting. Lion Hol-Engsworth is leader of the day, presented a delightful program composed of a solo by Mrs. Boling accompanied by Mrs. Puckett, and a piano solo by Mrs. Hayter. The musical offerings were received with much applause to which the musicians graciously responded with delightful encores. Lion Hodges explained some interesting facts about the Hoo fand Mouth disease, facts of which the majority of people are little acquainted with. Lion Werner told the Lions something of his experiences with the mamoth Ringling Bros. Barnum and Balley Circus which left Mexia over the T. & B. V. Thursday night.

Under the head of business, Dr. E. R. Blggs and Rev. O. W. Milburn of Westminster College spoke briefly on the drive for \$10,000 which will be made early next week in Mexiat. Dr. Roy Leamon was voted a new member of the club.

Does Corn Booze Smell Like Corpse?

(By United Press) SAN ANTONIO, Oct. 18 - Raiding for illicit liquor and finding a corpse was the experience of six city sleuths here recently.

Arriving at the selected spot for the raid, the officers stealthily surrounded the house. When they rushed the place they found instead of a hidden still or hooten a dead many lying on his bier with lighted candles and crepe about. Relatives and friends were "sitting up" with the corpse. The officers departed --

nowadays which maintain a proud independence Most of them bear some identifying trimming which links them to a dress from which they are best not parted. But here is a smart coat which retains its own identity while obligingly suiting itself to any dress over which it

may be worn.
This coat in Cote Centaur, a heavy ribbed silk favored by Paris, is admirably adapted for the first crisp fall days when the still warm sun makes heavy outer garments a burden. While there is a dis-tinctly tailored effect about its trim lines, it is smart enough to be quite in the picture of any daytime event. It is moreover very easy to slip on and off, with its single fastening of a large link button below the long rever col-lars, and has a pleasing roominess achieved by its very low opening line, and two large box pleats in front, which makes it very adapt-able for general utility purposes. A trim straight line is maintained however, by the straight back and the confining of the front fullness in large box pleats.

A pleasing color harmony is obtained by the trimming of brown and increase of the same waterled.

bandings of the same material. On the collar and cuffs these are applied as double facings. There are, moreover, brown silk arrows pointing the way both to fashionable smartness and to the pockets.

A button on each sleeve repeats the link button metif.
Ribbed silks continues in their

ATWATER

Back of Atwater Kent Radio there is a tremendous factory with laboratory and manufactruing facilities that are not surpassed in the whole world-

-there is the spirit and guiding impulse of master work-

—there is a nation-wide reputation for precision—and a recognition of the name "Atwater Kent" as a standard of excellence-

-there is the accumulated experience of more than a quarter of a century in the manufacture of precision electrical instruments

It is these qualities and high standards that have produced leadership for Atwater Kent Radio; -and have made it what many consider perfection in radio construction.

Veteran detectives early today threaded the masses of Chinatown disarming members of the Hip Sing tong at the doorway of their headquarters.

Eleven Chinese in all have been killed in the East since the tong war broke out eleven days ago.

Many Close Shaves In Mexia Saturday

Quite a number of "close shaves" were noted in Mexia Saturday, when pedestrians barely escaped being run into by automobiles. Citizens are urged to pay more attention to conditions when they attempt to cross the street. J walkers are menaced every time they violate the common sense rule. One of the near accidents was about 4:00 o'clock in the afternoon when a Dodge touring car, occupied by two women, ran into a negro woman with a baby in her arms. They were knocked down, but apparently were not injured, as henceforward. she quickly got up and continue Davis found managers here elated across the street, while the automobile went on down the street a couple of blocks and then turned back.

DAVIS CONCLUDES BODY OF TEACHER CAMPAIGN IN THE FOUND MUTILAT'D WEST IN ST. LOUIS IN SCHOOL SHED

By PAUL R. MALLON

ST. LOUIS, Oct. 18.-John W. Davis wound up his western campaign here today. With election day just a little more than two weeks off, the Democratic presidential candidate struck this pivotal point of his final tour before starting back east to concentrate his efforts there

over prospects of carrying Missouri. They told him his majority would be safely over 5,000. His speech here tonight will cinch the state, they

With the first half of his crusade over Davis is highly confident of the outcome.

"The widely advertised apathy of Democratic voters is a myth," he says. "The straw polls are just what straw polls have always proved to be-a tremendous majority for the side that conducts them.

"Every poll that the democrats have ever taken always showed 100 per cent in their favor, and the division of the present polls merely shows how far the republicans have fallen below their mark.

Davis wound up his Illinois campaign last night with three speeches in the foreign quarter of Chicago. In the Bohemian, Jewish and to Woodrow Wilson whom he declared had welded the nations of the world closer together than they had ever accomplices are under indictment before and pointed to the accom- today on a charge of having conplishments of labor during the eight spired to obtain \$80,000 from Nathyears of the Wilson administration. Leaving here tonight Davis will go to Nashville, where he will rest

Sunday and speak Monday night. JUSSERAND RELIEVED AS AMBASSADOR TO U.S. FROM FRENCH NATION

(By United Press)
PARIS, Oct. 18. — It was learned from official sources that an agreement has been reached here whereby the French government will ask the United States if M. Deschaneur will be acceptable as a successor to Jules Jusserand, the present French Ambassador at Washington. He has been appointed. Jusscrand has been relieved at his own request. Deschanear is the administrative director of the French Foreign office.

(Ry United Press)

GRAND RAPIDS, Mich., Oct. 18. -A rejected suitor is being sought today following the finding of the badly mutilated body of Miss Molly Fleming, pretty 23-year-old school teacher, in a woodshed near the school she taught at Marne. A bloody axe was found near the body.

The young woman was unconscious when found and died without naming her assailant.

The sought, Egbert "Happy" Dyke, had courted the pretty school teacher for more than a year. Recently she scorned him in favor of another young man of the village. He persisted in following her.

According to friends of the girl he called at the school late Friday afternoon.

A girl friend of Miss Fleming said she heard the school teacher go to the woodshed after school had been dismissed then she heard a scream. A few minutes later the body was found. Dyke's motor car was found in front of the school.

Old G. O. P. States Protest Against Raising Quotas

By JAMES T. KOLBERT (United Press Staff Correspondent)

CHICAGO, Oct. 18 .- The \$3,000,-000 budget for the republican campaign represents only a part of the amount the republicans will spend for this election, Senator Shipstead, Farmer-Labor, and member of the Senate campaign fund investigating committee declared today. Huge sums of money are being spent by various organizations not directly affiliated with the national committee, he said.

When the committee opens its ington, Shipstead will ask Senator Borah, chairman to summon persons identified with the state organizations and semi-private bodies engaged in pushing the Coolidge-Dawes ticket, Shipstead said.

William M. Butler, chairman of the National Republican Committee told the Senators that his budget; called for \$3,000,000, of this sum \$2,500,000 is to be used in the senatorial and congressional campaigns. lived about 35 years. He had been Borah, Shipstead and Senator Car. a Methodist for 70 years. He is surray, Democrat want to know why Pennsylvania, Massachusetts and Il. linois have been called on for a total Etchison, Wzco; J. H. SUPREME BODY'S **DECISION TO** TERMINATE

AUSTIN, October 13 .- The Supreme Court of Texas today held that Mrs. Miriam Ferguson is cligible to hold the office of Governor of the State, in the event of her elecentitled to have, her name placed on the general election ballot.

The decision was handed down at noon Saturday, the opinion favoring Mrs. Ferguson on all the challenged and contested points.

The decision covered 34 typewritten pages and was prepared by Associate Justice T. B. Greenwood, with Chief Justice Cureton and Associate Justice William Pierson concurring. The work of completing the leng-

thy draft was concluded only a short while before handed down and deals upon practically every phase of the injunction case as filed by Antonio, who attacked her eligibility as a woman gubernatorial nominee. The decision of the Supreme Court

definitely ends the litigation started after the run-off primary. W. R. Etchison Dies; Fought With Lee at Gettysburg

Friends of the Etchisons of this city will be grieved to learn of another death in their family, the second of the month, when their grandfather, William R. Etchison of Waco died.

The Waco News Tribune of Saturday, in chronicling the incident,

William R. Etchison, 82 years old, died Friday morning at 9:45 o'clock, just month to day after his son, W. R. (Bob) Etchison.

William R. Etchison died at his home on the Corsicana road, a mile east of Waco. He was stricken with apeplexy Thursday morning at 8 o'clock.

Funeral services will be held this afternoon at 5 o'clock at the family residence, Rev. E. E. White, pastor of the First Methodist church, officiating. The body will be sent by the Compton Undertaking company hearings in the east probably Wash. to Whitney, where interment will take place Sunday morning. Grandsons of Mr. Etchison will be active pallbearers.

Mr. Etchison was born in Georgia and served with the Confederates in the Fourteenth Alabama infantry. He fought in the battle of Gettysburg and was present when Lee surrendered at Appomattox. He has lived in Texas 40 years, coming here four years ago from Whitney, where he vived by his wife, three sons and four daughters, A. N. and C. M. J. W. Lane, Waco; Mrs. Jack Jones, Stamford, and Mrs. Kelly, Jackson, Ohio. He also has 54 grandchildren and 28 greatgrandchildren.

entire fund. They want to know if there is a hidden significance, despite the fact that Butler said the only reason for asking for so much money from the three states is because they appeared to be well able to raise it.

FIRST METHODIST.

The usual Sunday services will be held at the First Methodist church, the pastor Rev. W. B. Andrews preaching at both morning and evenhours. Let's make this a record day in church attendance. The Junior and Intermediate leagues meet at 3:00 and 4:00 p. m. The W. M. S. meets Monday afternoon at the church at 3:00 o'clock.

The 4th Quarterly Conference will be held at the Church next Friday night at 7:30. Written reports are expected from the following: W. M. Society, Intermediate and Junior Leagues, Sunday School Superintendent and Superintendent of each department, also from each organized class, collectors of Centenery, Education and Hospital funds as to amounts collected since last November.

TEXAS COMPANY LAYING NEW SIX INCH

Fleming leave in the Rowell field to Currie, where it will the in with the trunk line serving this Section. The Texas Pips Line Comgany has been pumping its Powell fra loction north to its Considered pump station, and it is claimed the extension will provide a short cut in moving the oil through Mexia to

The Sun Oil Company is starting a wildent test on the H. A. Swink land between the old Richland and Carrie pools. The company has over 700 acres under lease and will fall about a mile southwest of production in the old Richland pool.

The Pure Oil Company has arrangod for a test on the J. W. Webster land, South of Mexia and about 4 miles Northwest of Groesbeck.

Moore Brothers have rigged up for a test to be made on the Mrs. E. R. Quinby land, about a mile Northwest of Corrie.

Richardson and McAllister have a lerrick up on the A. M. Milligan lease, between two 3200 foot dry holes, several miles east of the Richland pool. Gilbert Johnson et al are reported to have encountered the chalk in the Bazette test North of Powell in Navarro County.

The Bains Creek Petroleum Company's Rich Kennedy gasser is to be used to supply fuel for other tests to be made southwest of here about twelve miles, where a quartet of dry ever. holes have already been drilled, but where the indications are so encouraging as to cause the locality to continue to hold the faith of the oil fra-

Since the recent decision by the Prairie Oil and Gas Company to discontinue pro rating runs and the simultaneous statement that the company would purchase all the storage oil accumulated during the period that purchases were curtailed to 50 per cent of the oil runs from the leases ,it is now felt that there is no danger of further decline in crude prices in this territory and has no doubt been responsible for the very active wildcat campaign, according to local oil men.

recently increased its properties in chose to deny its services when the this part of the Texas when it figmed in one of the largest deals of the year, in the purchase for the J. R. Webb lease owned jointly by the Hallmack Oil Company, Derby Oil Company and Seay Cranfills Reynolds and Richardson. \$200,000 cash and \$300,000 in oil, making a total of \$600,000 is said to have been the consideration for this new Richland pool property. The lease comprises serve in the army, were told by the afafirs of the company. The about 60 acres and is averaging Judge Albert S. Reeves that the employees there embrace engineers around 1400 barrels daily, according to latest available reports. The Republican Production Company is said to have charge of the property.

PICTURES BY LOCAL ARTISTS

Our collection of paintings by local artists is being accorded much well merited praise, and today we are featuring work in water colors, oils and pastels.

Mrs. R. D. Morgan has done a tharming group of three pictures, water colors, which breathe the spirit of summer-one is a Japanese garden scene, with a rustic pergola in by the Hoosier capital in 1919 to the background, from which a winding path leads down to a bridge spanning a brook in which water lilies and other aquatic plants are blooming. The others are flower studies-Irises in soft colors of mauve, lavender and purple-reddish orange blooms in a vase with misty white blocks long on which will be situated pannicles of gypsophila.

Miss Carrie Boley also has a piclure in water colors—a rural scene with sheep grazing beneath an ap- by the city of Indianapolis, and by ple tree gorgeous with spring blos- | Marion county, in which Indianapolis soms. The international team tennis situntion is very closely related to the existing condition in the heavyweight fighting class. Jack Dempsey looks to be due for a reign as the champion until he wears out and the United (Sates seems to be sure Tilden quits and Billy Johnston wears out.

As far as Australia is concerned, however, this outlook is not as promising as it might seem. While Tilden and Johnston are wearing out, the Australian stars will be suffering the same effects of time and competition and there are no players in Australia coming along who can be compared with a flock of youngsters that are developing in the United States.

Although there is no remedy fer it, the circumstances which force challenging nations to spend theusands of dollars, travel hundreds of ! miles and spend months of time on [] the jeb, give the United States a big advantage in defending the cup and keeping it in this country.

At one time, not so many years ago, the United States was In the position of a challenger, and had to spend just as much money, time and labor as other nations are doing now. So it is fair for all in the long run perhaps.

When you come to think of it, foreigners are not wrong when they complain that the United States depends upon the element of luck to retain dominance in most of the fields of international sport. What they regard as luck is the convenience of a lot of natural advantages in the defense of the international polo cup, the yacht cup, the Davis tennis cup and other international

IDLE MONEY NEVER GROWS

Science has shown that living creatures can enter a state of latent life and arise as though from the dead years later. Meantime there has been no growth and little deterioration, since the organs of the body have suspended functioning. Money is like that. If you place a quarter in a safe place it may be found thousands of years from now and possibly it will be regarded as a curiosity, but it will be almost of the same shape prohibition should be deemed offen. my business experience I have never

and of the same weight as it was when laid aside.

Money, like orgnism, also can grow. In healthful, normal at the law or tries to create the imthan the business men of Mexica and processing that "comparison that the law or tries to create the importance of the comparison that "comparison that surroundings the baby becomes a man, a leader of nations. A pression that "smart" people all vioquarter put to work becomes a fortune. There is the parable late the law should be resented.

of the rich man who upon deciding to go on a journey divided

4. The perfectly amazing economics of the rich man who upon deciding to go on a journey divided. his property among his servants. To one he gave five talents, to another two and to a third one. The first two invested what had been given them, putting it out at interest and doubled their money. The third, fearful lest he should lose the talent, which, by the way, was worth between \$1,200 and \$2,000 burnise their own standard of living ied it. When the master returned for an accounting, he scolded without knowing why. the servant who had allowed his property to remain idle, and, taking the one talent from him, gave it to the servants who had the prohibition law, the anti-Amerishown more wisdom.

There is still idle money hidden between mattresses, in old those actively engaged in waging shoes and buried, but not so much as formerly. There is other war upon it, should be brought to money in the shops, factories and on farms, representing its the attention of patriotic people. purchasing power in wheat, machinery and gold, and working hard for its owner, and for all of us.

THEIR FEET IN THE CLOUDS

Recently young Teddy Roosevelt defined Republicans as upon offending police or courts seindividuals who have their heads in the clouds, but their feet vere criticism. on the ground. That may describe the Republicans of the school of Lincoln and the elder Theodore Roosevelt, Republicans who had ideals and the courage and independence to strive for them, but does it fit those of the isolationist school and the group that would ignore the corruption at Washington? It is noticeable that an increasing number of the Republicans of the Lincoln and Elder Roosevelt schools are turning to the leadership mending the Retail Merchants Asof John W. Davis.

May it not be that some of the Republicans of the young Teddy school, who think they have their feet on the ground their heads in the clouds, illustrate just the reverse? Their years, participated actively in church in the clouds. inability to see what is going on about them, the conditions and elvic programs and made themand the tendencies of the times, suggests rather that they have their heads in the ground and their feet in the clouds. For instance, if young Teddy, when assistant secretary of the navy, had had his head up and alert, would be have been as ignorant turn again soon to make this their has been or the property of the navy. as he proved to be of the leasing of the navy oil reserves to private sources? So far as his testimony on the subject of the oil News Publishing Company, reserves goes he might as well have had his head in the ground Mexia. Texas. all the time; he appeared to have utterly no grasp of the sig- Dear Sirs: nificance of what had been going on around him.

SEE YOUR DUTY AND DO IT

The public should respond cheerfully to the treasury's latest request. It appears that there are too many quarters in cirfculation and too few half-dollars being passed around.

The treasury requests that from now until Christmas the public make an earnest effort to accept the half-dollars in preference to the quarters. Otherwise the treasury and federal reserve vaults will be loaded up with the stuff while 25-cent picces are rattling around in all pockets. The treasury declares that there is an ample supply of 50-cent pieces but that there is something of a shortage in the smaller coinage.

The public's duty is clear: It must receive half-dollars till

it horts. We'll be glad to receive ours!

Statistics show that there are fewer inmates today of the country's poerhouses. Instead of going over the hill, they seem to be making the grade.

Among new steps approved at the recent congress of dancing masters is the Huppa-Huppa, named, it appears, by a stammerer with hiccoughs.

00000 A New York judge told a convention of bankers that youth is committing the most of our crimes. The country seems to be missing the old-fashioned woodshed.

* * * * *

All the driver has to bear in mind when approaching a grade crossing is that STOP, LOOK AND LISTEN signs aren't erceted for the benefit of railroad engineers.

SUPPLIES

—This illustration will make its appeal to young men and women who are contemplating matrimony, and whose desires and ambitions are for an assured happy future, where Love's young dreams may be mothered under the protection of an ideal home.

—It is the fulfillment of this dream, the creation of a home with its ties of sentiment, that makes for continued happiness. It is the best insurance for lasting contentment, and at proposing time when you are desirous of fulfilling the promises and plans you have for the future, if you have a lot and a bank account or building and loan shares, it is then you will appreciate fully your efforts which will place you in position to back up your good intentions with a home that will be the very means of assuring a perpetual happiness.

—The first few years of married life, while adjustments are taking place, are the ones in which home owner-ship plays an all important part. More matrimonial failures are due to inability in meeting rents and keeping up appearances, than all other problems combined, while if there is sufficient means to provide a home its influence and pride of possession will dominate.

—No man has a right to entice a girl from her home and fireside with simply promises of a future in a rented home. Conservative thinking men realize this, and the awakening on this important subject will work a transformation in the future lives of our citizens.

—Resolve to buy a lot and save, that her vision of a home and happiness may be fulfilled by you. An accomplishment that you will always be proud of.

—Build an ideal home of your own; create an atmosphere of attractiveness around your present home; after this lend your financial support in helping someone else acquire a home. Mortgage loans are the safest and surest of investments, and, in addition to the security, you will be helping in a movement that will mark you a real benefactor—a citizen with the highest moral code of ideals.

The following organizations, public spirited firms and individuals are interested in helping to make Mexia a city of more beautiful homes and to assist in every way possible in creating homes for those who are desirous of making Mexia their future home, and it is their recommendation that all who can possibly do so, build homes or convert their surplus money into home building channels. That you may take full advantage of the information these pages contain, they have retained the services of competent designers to prepare a booklet of home plans and will mail a copy free on receipt of the coupon from this page.

Plan No. 1860-1861

Make you visions of home a reality, by adopting this modern English stucco bungalow plan to build from. This is one of the very latest ideas in modern architecture, and one that will be in vogue for many years to come. You will agree with us when we say it will be hard, indeed, to improve upon the general arrangement of the rooms. They are just as compact and convenient as it is possible to make them, and we know you are going to appreciate our efforts in creating and making possible these home plans for you to build from.

EUBANKS APPEAL TO DEMOCRATS TO HELP IN CAMPAIGN

That, as the situation may be regarded today, the Democrats should tarry the National election in the electoral college and that the statenent of Chairman Butler of the Republican National Committee that the election would be decided by that is to be regarded as "more or less of a concession of defeat on is the view taken by John

W. Davis, Democratic nominee for the presidency, says a statement issued by A. H. Eubanks, County chairman of the Texas Finance Committee Democratic National Committee, who is urging all Texas Democrats to contribute through the Victory Clubs or otherwise toward the necessary expenses of the Demotratic campaign. The statement says:

"Mr. Davis predicts an election at the polls in November, basing his talculations upon the Democrats carrying the South, the border Southern States, plus a few scattered States. The Democratic nominee specified Missouri, West Virginia. Loyalty To Party Kentucky and Maryland as to be considered as safely in the Democratic column.

"On the other hand, Mr. Davis as-I do not think the pillars of society would tumble."

"Mr. Davis has ample justification for the assertion, in that even such Democrats as have been dubious as to winning the election outright, have expected that in case they met defeat in the electoral college and the election was forced into Congress, they could confidently expect Mr. Davis to be chosen Presitives, probably with the aid of a analysis of the probable vote by States in the House, one vote to each State as provided by law, indicates that this premise is warranted by basis of fact."

The flashlight beam does the why, theirs but to faint and cry' the police detail which enforces the trick. What chance for the neckers while their escorts step on the gas mandate. They ride in a touring car, in an electric beam projected, if and promise never to do it again,

class meeting was called by the vice-president, Chester Harris. The class decided to go on a pienie Wednesday night. At six-thirty on the appointed day the Sophomores and a few invited friends, with Mr. and Mrs. John McCiroy and Miss Whittaker as special guests, and Miss Wells, the class sponsor, met at the Baptist Church and went in cars from here to the Reunion Grounds. After several games were played someone made a motion to eat; this motion was seconded and carried. and a delightful lunch was spread. Everyone had a good time, and we are planning lots of good times all through the year. The first number of the "Black

HIGH SCHOOL NOTES.

Cat" will come out within a few days, and everyone is looking forward to its appearance. Not only is the High School behind this publication, but all the town is supporting it. too. The School Board declared Thurs-

day a holiday because of the big circus which came to town. From the appearance of the big crowd the High School was well represented, and it is hard to say just who enjoyed seeing the animals most. Quite a few of the students were seen seen watching the unloading of the

Miss Ross and Mrs. Kruger of the sights of the Pallas Fair this week- 'Miss Lessie Spearman.

By George McManus and Thursday morning the Physical Education girls met at the First Baptist Church at five o'clock. Miss Scheel, the Physical Education Director, chaperoned us on a sunrise breakfast.

By five o'clock about fifty girls had arrived, so the march for Wright's tank began.

The girls taking Physical Education for the first time were made to carry all packages, and after arriving at the tank were made to get the wood, build the fire, cook the bacon, and spread the lunches.

By the time that the other girls were tired of making fun of us, the breakfast was ready. Everyone was very hungry and although the breakfast was good ,anything would have had a savory taste by that that

When every cramb had been caten the first year girls were again called to the front. This time it was for the purpose of doing stunts for the enjoyment of the others.

About nine o'clock we returned to town, tired but happy after having good morning's outling.

BERKELEY, Cal., Oct. 13 .- How does Andy Smith pick his men?

Does the famous California football coach personally follow the progress of each man who is out on the field trying to make the team. or does he rely on his assistants in choosing gridiron material that looks promising.

Or does the ambitious candidate have to virtually force himself upon

The answer is yes and no. Owing to the smooth working of 30J15 on his football prospects long be-

fore a season starts. The great majority of the men or a Blue and Gold varsity eleven have played freshman football at California. And it is during this service fore the weather gets bad, I can ENGRAVING-All kinds of cards, in the freshman ranks that the as-

er information, which is passed on to their chief. And, of course, Andy himself keeps more than a weather eye on his good squad. Promotion to the varsity doesn't

mean that a player is going to remain there indefinitely. Not by a long shot. The man who holds a job on Andy's front-rank eleven must constantly prove that he is worthy of the confidence placed in him. So far as the "goofs" are con-

cerned, Andy not only receives reports from the reserve team coaches on the progress of promising players in the "goof ranks, but he also watches them himself when the lowly ones scrimmage against the varsity. The classic example at California

of a man making the varsity from the "goofs" is the instance of Bro. die Stevens, who, in the course of one year, 1920, developed into the great Brodie who received Brick Muller's famous sixty-vard forward pass at Pasadena against the champion Ohio State eleven, a game which California won, 38 to 0.

At the beginning of the season Brodie started with the goofs." He wasn't very heavy, but he certainly was a streak in action. Brodie play- j

MEXIA GROCERS URGE BUYING IN LARGER **OUANTITY**

Mexia's exceptional grocery stores, wholesale and retail, are attracting hundreds of people to this city from distant points, where they purchase their grocery products and dispose of their truck and poultry.

It is doubtful if any town the size of Mexia in Texas offers to the public better grocery stores than are found right here in Mexia. They are the last word in up-to-dateness and are constantly expanding to meet the growing demand.

They are always anxious to say a word that will help their customers and one of the good suggestions they advance is for purchasers of their products to buy in larger quantities and thus save considerable money each year. Of course it is to their advantage to sell in smaller quantities but they realize that the public generally does not know just how much is lost to the community each year in paying for tin boxes, paper and card bags, fancy bottles with fancy tops, and little tin receptacles with patented tops, which are used once and then discarded, never to be used again.

By buying in larger quantities, from as far away as thirty miles. more of the usable products are se- When they cannot handle the goods

(By International News Service.) PILAFF.

PARIS Oct. 18 .- Pilaff of chicken livers in small gourds is the specialty of a litte Turkish restaurant in Montmartre.

Brown in butter with two teaspoonfuls of chopped onion and onefourth pound of Carolina rice. Stir a few minutes over the fire and then moisten with a pint of white consomme. Season well. Cover and cook for eighteen minutes. At the last moment add two spoonfuls of

butter broken up into small pieces. Cut two small gourds into tiny oil salt and pepper. A short while before needed, brown in bufter about one-half pound of chicken livers, cut

into halves. Season. Put the rice into a shallow serving-dish and arrange the rondelles about the edge. In the center put the liver and pour over a little of the black butter. Serve with a tomato-sauce apart.

cured, while the amount of useless material purchased is reduced to the minimum.

Thousands of dollars could be saved by the housewives of the Mexia section annually by buying this way. Moreover the grocerymen of Mexia are always willing to help farmers and truck growers in finding a ready market for their products when they drive in, some themselves, they usually know some- parade was in full view of the hospitality were: Mesdames Rush one who will take them and are glad guests. to render this service.

Mexia's grocers are anxious to render their valuable aid to the farmers and to all industries locating here. No movement is started for the benefit of a bigger and better Mexia but that these men are found among the leading contribut-

Pleated Panel Permits A Graceful Freedom To This Slender Silhouette

<u>과 아마트 아무슨 아무는 아무는 아무는 아무슨 아무는 아무는 아무슨 아이들은 아니다. 그 아이들도 함께 되었다. 그는 아무슨 아무슨 아니는 아</u>

HERE is something particularly graceful, soft and femlarly graceful, soft and fem-inine about this afternoon frock of brown crepe, whose wide pleated panel, while preserving the straight and slender sithouette pre-scribed by fashion, still gives a rare and welcome freedom of move-ment. The back of the dress of course is perfectly plain, and gives the effect of a straight narrow

coat opening over the panel.

The wide soft belt tying in front is a continuation of the back, which is unbroken by any restraining line. In this loosely knotted belt we may see a development of the scarf idea and in fact such scarfs tied loosely around the hips are seen with good effect on the straight chemise type of evening dress. A repetition of this idea is seen in the band of crepe tied at the wrist and con-

tining the rather full sleeves.

A dress like this is one of those charmingly adaptable garments which are as much at home on the morning shopping excursion as on the afternoon visit. It would be equally appropriate in a number of fashionable shades but the rust or wood tones favored by Paris are particularly good for a frock of this simple type.

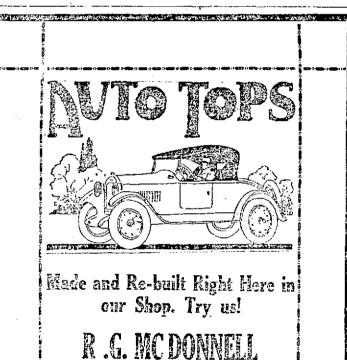

Crepe continues to be very popu-

lar, according to Henri Creange, Chency fashion authority. A number of new weaves have been in-troduced this fall. Among them a new flat crope of the cashmere family, with a mat or dull finish especially desirable for the street. Then there are the lovely lighter weight crepes. Among the new varieties is a crepe roman with a new soft finish, called Crepe Med-ici, and Crepe Yvette, a still lighter weight crepe of the same family.

Freshmen Given Mental Tests At State University

AUSTIN, Texas, Oct. 19.-Under the supervision of the psychology department, all freshmen of the College of Arts and Sciences of the University of Texas have been given mental tests to determine the average run of intellectuality, reasoning power, and thinking ability of the high school graduates. Approximatethe examination made a passing grade, according to Dr. F. A. C. Per-

rin, professor of psychology. The test is a very general one. covering many fields. There are 100 questions asked, and one hour is given to answer them in. Ten different types of questions are given. Some questions involve merely the filling in of blanks, some are reasoning questions, some deal with algebra and mathematics, while others test the students knowledge of geography, prominent men, and current events. If a student's answers indicate that he is delinquent in reasoning power he is given special attention, and a special course of study is outlined for him.

Keep on telling 'em and you will keep on selling 'em. News advertising brings desired results.

Houston Quarantine Does Not Affect

(By United Press)

HOUSTON, Oct. 18 .- Acting upon reports reaching Houston from various sections of the state, the Houston Chamber of Commerce has broadcast a statement, approved by Dr. G. M. Guiteras, chief of the goverament quarantine station at Galveston, regarding quarantines covly 75 per cent of those who took ering the hoof and mouth disease and the yellow fever.

"With respect to the hoof and mouth disease there are no quarantine restrictions that conflict in any way with the liberties of the citizens of Houston or visitors to the city. Restrictions are in force only about the area 20 miles from Houston through which none can pass

without being fumigated." "There are absolutely no restric-

ACTOBER BRINGS TWO NEW GAS FIELDS TO

The month of October has been leatured by two important gas discoveries in the Mexia territory which point to oil pools, in the opinion of oil men of this section, and has drawn back to Mexia many faces familiar to the oil boom days of 1921 and 1922.

One of the discoveries was southwest twelve miles and the other northeast six miles. The first was on the Rich Kennedy tract, southwest, discovered by the Bains Creek Petroleum Company. The last came in Wednesday morning on the Manning farm, and registered over 23,-000,000 cubic feet at 3:30 the afternoon of the date on which is unexpectedly blew in.

Southwest, new tests are expected to be announced soon and it is likely that the gasser will be utilized and sold to companies who have their eye on this production. The gasser was estimated as being good for about 8,000.000 cubic feet.

The Carter and Lytle's test on the Manning bridged over Thursday morning and every effort will be - 30 to keep from losing the hole. Whether its production is sold as a gamer will be determined by Carter and Lytle themselves upon arrival in the field. The discovery has increased optimism in the region and now practically every acre of land is under lease. The Humble Company has the largest block of

acreage. The Boyd Oil Company, testing on the Boyd about 2,000 feet southwest. is drilling in the chalk at around 2200 feet. It is making rapid progress. Colonel A. E. Humphreys. head of the company, spent several days here this week, watching developments.

of miles west of the Boyd test, is of Tyler is president of the Assocleaning hole, after abandonment ciation. for sometime. These tests are being watched carefully and the announcement of several more locations, especially near the Carter and Lytle and Boyd tests are expected any

The production of the Mexia district remained just about the same as usual the past week, hitting around 26,000 barrels in Mexia, while the total for the entire district remained over 125,000 barrels.

CHILDRESS-Survey is being made by the Texas Central Power Company for the high tension transmission line to connect the plants at Childress, Estelline, Memphis and Clarendon.

Methodists Urged To Attend Fourth Quarterly Meeting

Rev. C. A. Bickley, Presiding Elder of the Corsicana District of the Methodist Episcopal Church South, is urging upon Methodists throughout the district the necessity of working hard from now until Conference for the success of the activities of the denomination.

In a card addressed to members in Mexia, he says:

Dear Co-Laborer: We approach the close of another Conference Year with gratitude to God for both material and spiritual blessings. God has been gracious to us. May our gratitude to Him be shown by loyally standing by His church. Our goal is 100 per cent on salaries and Conference Collections in every charge. We look to our faithful stewards, whose loyal ef-

forts alone can make this possible. The Fourth Quarterly Conference will meet at Mexia, Oct. 24, 7:30 p. m. 1924. We want every steward present. Bring a praying heart and a full report. The church needs your counsel at this important conference Thanking you for your faithful service, I am.

Sizzerely yours. C. A. BICKLEY.

To Wine Out Party Lines In Nebraska

(By United Press) LINCOLN, Neb., Oct. 19.—An amendment to the constitution abolishing party lines in all primaries is to go before the voters on November

Gynod At Abilene Most Successful of All Ever Held

The Synod of Texas of The Southen Presbyterian Church completed in largest and most important meeting at Abilene Friday evening.

Two hundred and seventy-five delegates were in attendance, repre-Inting churches from El Paso to Texarkana and from Brownsville to Dalhart-a territory larger than half the territory comprised in all the other Synods of the Church. The meeting was business like and inmaining, reports showing great progress in all departments of church

Ør. W. S. Fairly of El Paso was Mederator and Dr. S. J. McMurry of Gatesville was Stated Clerk of the meeting.

The meetings were held in the Beautiful and large First Presbyterian Church of Ahilene, recently completed, while the Women's Synodical meeting with seventy-five delegates were holding their sessions in the auditorium of the Carnegie Library. The Synod was entertained by the First Presbyterian Church in the homes and Hotels of the city, the entire body dining together in the large dining room of the church wice daily.

Among the distinguished leaders of the church were Dr. S. L. Morris of Atlanta, secretary of the Board of Home Missions, Rev. Walter Getty, secretary of Young Peoples work, Dr. S. J. Leslie Stated clerk of the General Assembly, Dr. E. S. Chandler, president of Daniel Baker College, Dr. T. C. Varner, president of Milford College, Dr. J. W. Skinner, president of Texas Mexican Institute for Boys, S. J. Delany, president of Schreiner Institute and Dr. T. W. Curry of Austin Seminary.

Among the principal features of the meeting was the report of educational work, showing increased attendance at all schools under care of the Synod, splendid financial resourses and improved equipment. It was ordered that the three colleges Establish and maintain courses in the Bible and Religious Education, training school for religious workers in connection with its course.

Dr. Skinner, Dr. Minter, Dr. Morris, Dr. William Anderson, Rev. Walter Getty and Dr. E. S. Caldwell delivered sermons and addresses during the sessions.

The next meeting will be entertained at Kerrville next August by the Westminster Presbyterian Encomponent and Scheiner Institute of

It is erdered that the Synod of tle. nent year be Evangelistic in its plans and the committee on arrangements will bring some of the leaders in the evangelistic movement in the mikel State: for addresses.

An aggressive evangelistic camgaign will be conducted throughout the thurches of Texas this year and

MEN AND WOMEN IN THE NEWS SPOTLIGHT

WING MRS LEWISTO TRANSPORTED THE BUCKESS OF GALACTICAL Below MAYOR TX SCHWAB SI RUTH SHEHADS COMES

Mayor Frank X. Schwab, of Buffalo, N. Y., has opened war on the Ku Klux Klan and seeks to prosecute all members under a recently en-acted State law forcing them to register. Miss Philippa Wendell, wealthy New York girl, sister of Lady Carnarvon, has been married in London to the Earl of Galloway. Mrs. L. B. Woodruff, New York author, called by Penrhyn Stanlaws, the artist, "the most beautiful woman in the world," committed suicide by leaping from a window of her home while ill. Awarded the temporary custody of her three-year-old daughter by a New York court, Mrs. Ruth Shehab, "the girl with the perfect form" in the Follies, has entered suit for separation from Joseph Shehab.

LIONS HEAR OF WESTMINSTER **EXPANSION PROGRAM**

The weekly luncheon of the Lion's Qub at the Topic Cafe Friday, sough not largely attended, was a most enjoyable, meeting. Lion Hol-Ingsworth is leader of the day, presented a delightful program composed of a solo by Mrs. Boling accompanied by Mrs. Puckett, and a piano solo by Mrs. Hayter. The musical offerings were received with much applause to which the musicians graciously responded with delightful encores. Lion Hodges explained some interesting facts about the Hoo fand Mouth disease, facts of which the majority of people are little acquainted with. Lion Werner told the Lions something of his experiences with the mamoth Ringling Bros. Barnum and Bailey Circus which left Mexia over the T. & B. V. Thursday night.

Under the head of business, Dr. E. R. Biggs and Rev. O. W. Milburn of Westminster College spoke briefly on the drive for \$10,000 which will be made early next week in Mexia. Dr. Roy Leamon was voted a new member of the club.

Does Corn Booze Smell Like Corpse?

(By United Press)

SAN ANTONIO, Oct. 18 .- Raiding for illicit liquor and finding a corpse was the experience of six city sleuths here recently.

Arriving at the selected spot for the raid, the officers stealthily surrounded the house. When they rushed the place they found instead of a hidden still or hooteh a dead many lying on his bier with lighted candles and crepe about. Relatives and friends were "sitting up" with the corpse. The officers departedquietly.

a proud independence Most of them bear some identifying trimming which links them to a dress from which they are best not parted. But here is a smart coat which retains its own identity while obligingly suiting

itself to any dress over which it may be worn. This coat in Cote Centaur, a heavy ribbed silk favored by Paris, is admirably adapted for the first erisp fall days when the still warm sun makes heavy outer garments a burden. While there is a distinctly tailored effect about its trim lines, it is smart enough to be quite in the picture of any day-time event. It is moreover very easy to slip on and off, with its single fastening of a large link button below the long rever col-lars, and has a pleasing roominess achieved by its very low opening line, and two large box pleats in front, which makes it very adapt-able for general utility purposes. A trim straight line is maintained however, by the straight back and the confining of the front fullness in large box pleats.

A pleasing color harmony is obtained by the trimming of brown bandings of the same material. On the collar and cuffs these are applied as double facings. are, moreover, brown silk arrows pointing the way both to fashionable smartness and to the pockets. A button on each sleeve repeats the link button motif.

Ribbed silks continues in their popularity predicted by Henri Creange, the fashion authority, and confirmed in the recent Paris Openings.

IGDON-MCELROY COMPANY
MEXIA, TEXAS

Back of Atwater Kent Radio there is a tremendous factory with laboratory and manufactruing facilities that are not surpassed in the whole world-

-there is the spirit and guiding impulse of master workmanship-

-there is a nation-wide reputation for precision-and a recognition of the name "Atwater Kent" as a standard of excellence-

there is the accumulated experience of more than a quarter of a century in the manufacture of precision electrical instruments-

It is these qualities and high standards that have produced leadership for Atwater Kent Radio;—and have made it what many consider perfection in radio construction.
